01 ABOUT

What is Clinovate?

Clinovate is the clinical conference of the International Health Dialogue, hosted by Apollo Hospitals. It brings specialists, scientists and practising clinicians together to discuss new developments in clinical practice.

Who should attend

Laboratory Medicine

- Pathologists and laboratory physicians
- Molecular and genetic diagnostics teams
- Transplant physicians and HLA laboratories
- Gynaecologists and cervical screening teams
- Neurologists working in dementia

Longevity Medicine

- Physicians and internal medicine specialists
- Geriatric and preventive medicine
- Lifestyle medicine and Ayurveda
- Nutrition and dietetics
- Sports and exercise medicine

Oncology

- Medical, surgical and radiation oncologists
- Radiologists and interventional radiologists
- Pathologists working in cancer diagnostics
- Cancer screening and early detection teams
- Multidisciplinary tumour board members

Part of IHD 2027

Clinovate is one of four conferences at the 14th International Health Dialogue, 29–30 January 2027. IHD expects 2,000+ delegates and 200+ speakers from 30+ countries.

IPSC	HOPE	THIT	CLINOVATE
International Patient Safety Conference	Healthcare Operations & Patient Experience	Transforming Healthcare with IT	Clinical Innovation & Excellence
